

### SEALING SOLUTIONS – AUTOMOTIVE BODYWORK AND JOINT SEALING

This product range provides professional-grade solutions for sealing and protecting joints, seams, and structural elements in automotive bodywork. Designed for excellent adhesion, flexibility, and paintability, these sealants ensure long-term durability, vibration resistance, and ease of application on both new and repaired vehicle bodies.

### STRUCTURAL BONDING SOLUTIONS – PLASTIC AND METAL REPAIRS

For strong and durable repair of damaged plastic or metal parts, structural adhesives provide high-performance bonding, excellent gap-filling properties, and reliable strength even under mechanical stress. Whether you're fixing bumper tabs, plastic panels, or reinforcing structural elements, these products ensure a solid and lasting bond.

### GLAZING SYSTEMS – WINDSCREEN REPLACEMENT

A complete system for automotive glass bonding and replacement. RADEX offers a reliable and efficient solution for windscreen and glass installation – from surface preparation to final bonding. The system ensures durable adhesion and meets the safety requirements of modern vehicles.

## SEALING SOLUTIONS

#### RADEX POLYURETHANE SEALANT 701 ART. 220701 - 220703

High-performance 1K polyurethane sealant for seam and joint sealing in car body repair and assembly. Offers excellent elasticity, is odourless, and overpaintable. Ideal for sealing weld seams and overlapping joints. Used with manual or pneumatic guns.

#### RADEXSEAL BS BRUSHABLE SEAM SEALER ART. 210027

1K brushable seam sealer with high flexibility and adhesion to bare or painted metal. Keeps visible brush marks for an OEM look. Perfect for sealing trunk, hood, and door joints.

Applied with a stiff nylon brush. Suitable for horizontal and vertical surfaces.

#### RADEX SPRAYABLE SEALANT 901 ART. 220901-220903

1K sprayable sealant that mimics factory seam appearance. Compatible with overpainting, retains elasticity, and ideal for sealing wheel arches, side panels, and doors.

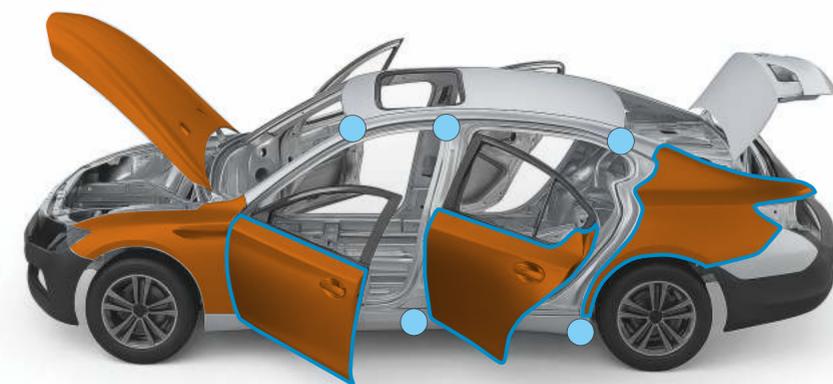

#### RADEX PNEUMATIC GUNS & APPLICATORS

PG – Pneumatic gun for traditional cartridges or sausages.

PGS – Pneumatic spray gun for sprayable sealants.

HSG / HCG – Manual hand guns for sealants and adhesives (standard size).

PRO APPLICATOR – Ergonomic applicator for high-precision gluing and sealing.

- RADEX 225 2K EPOXY STRUCTURAL ADHESIVE ART. 220225
- RADEX 335 2K EPOXY FLEXIBLE ADHESIVE ART. 220335
- RADEX 433 2K SEMI-RIGID POLYURETHANE FOAM ART. 220433

- RADEX 801 GLAZING ADHESIVE ART. 220801
- RADEX 433 2K SEMI-RIGID POLYURETHANE FOAM ART. 220433
- RADEX PU SEALANT 701 ART. 220701 - 220703

- RADEX 2K PLASTIC STRUCTURAL ADHESIVE (30 SEC) ART. 220000
- RADEX 2K PLASTIC STRUCTURAL ADHESIVE (1.5 MIN) ART. 220090
- RADEX 433 2K SEMI-RIGID POLYURETHANE FOAM ART. 220433
- RADEX 801 GLAZING ADHESIVE ART. 220801

- RADEX 433 2K SEMI-RIGID POLYURETHANE FOAM ART. 220433
- RADEXSEAL BS BRUSHABLE SEAM SEALER ART. 210027
- RADEX SPRAYABLE SEALANT 901 ART. 220901-220903

### STRUCTURAL BONDING SOLUTIONS

#### RADEX 2K PLASTIC STRUCTURAL ADHESIVE (30 SEC) ART. 220000

Ultra-fast curing polyurethane adhesive for rapid repairs of broken plastic parts such as tabs and brackets. Features excellent gap-filling and vertical application properties. Ideal for use with reinforcing mesh.

#### RADEX 2K PLASTIC STRUCTURAL ADHESIVE (1.5 MIN) ART. 220090

Slightly longer working time for more precise positioning. Offers similar durability and resistance against chemicals, heat, and moisture.

#### RADEX 335 2K EPOXY FLEXIBLE ADHESIVE ART. 220335

A high-performance epoxy adhesive for bonding plastic, metal, and composite materials. Combines strength with slight flexibility, making it suitable for stress-loaded areas.

#### RADEX 225 2K EPOXY STRUCTURAL ADHESIVE ART. 220225

Designed for rigid structural bonds, especially suitable for metal or composite substrates. Offers excellent chemical and thermal resistance.

#### RADEX 433 2K SEMI-RIGID POLYURETHANE FOAM ART. 220433

Expanding foam adhesive that fills cavities, restores missing parts, and reinforces damaged zones. Ideal for reshaping or rebuilding areas in bumpers and plastic parts.

#### RADEX PLASTIC ADHESIVE PRIMER (Aerosol) ART. 220111

Surface preparation primer to improve adhesion of structural adhesives on plastics such as ABS, PP, PMMA, PVC.

#### RADEX STATIC MIXER TIPS / NOZZLES ART. 220005-220007

Precision mixing tips and nozzles for accurate dosing and application of 2K structural adhesives. Ensure optimal component mixing ratio and easy tool handling.

#### RADEX PRO APPLICATOR GUN ART. 410033

Professional applicator for 2K adhesive cartridges. Compatible with RADEX structural adhesives for consistent and clean application. Durable, ergonomic design for everyday workshop use.

## GLAZING SYSTEM

#### RADEX 801 GLAZING ADHESIVE ART. 220801

High-performance adhesive designed for direct glazing of windshields, side, and rear windows. Also suitable for bonding plastic vehicle body parts. Offers excellent sag resistance, fast curing, and strong final strength.

#### RADEX PRIMER ART. 220001

A black primer used to promote adhesion between glass, paint, or ceramic-coated areas and the adhesive. Also provides UV protection in bonded joints.

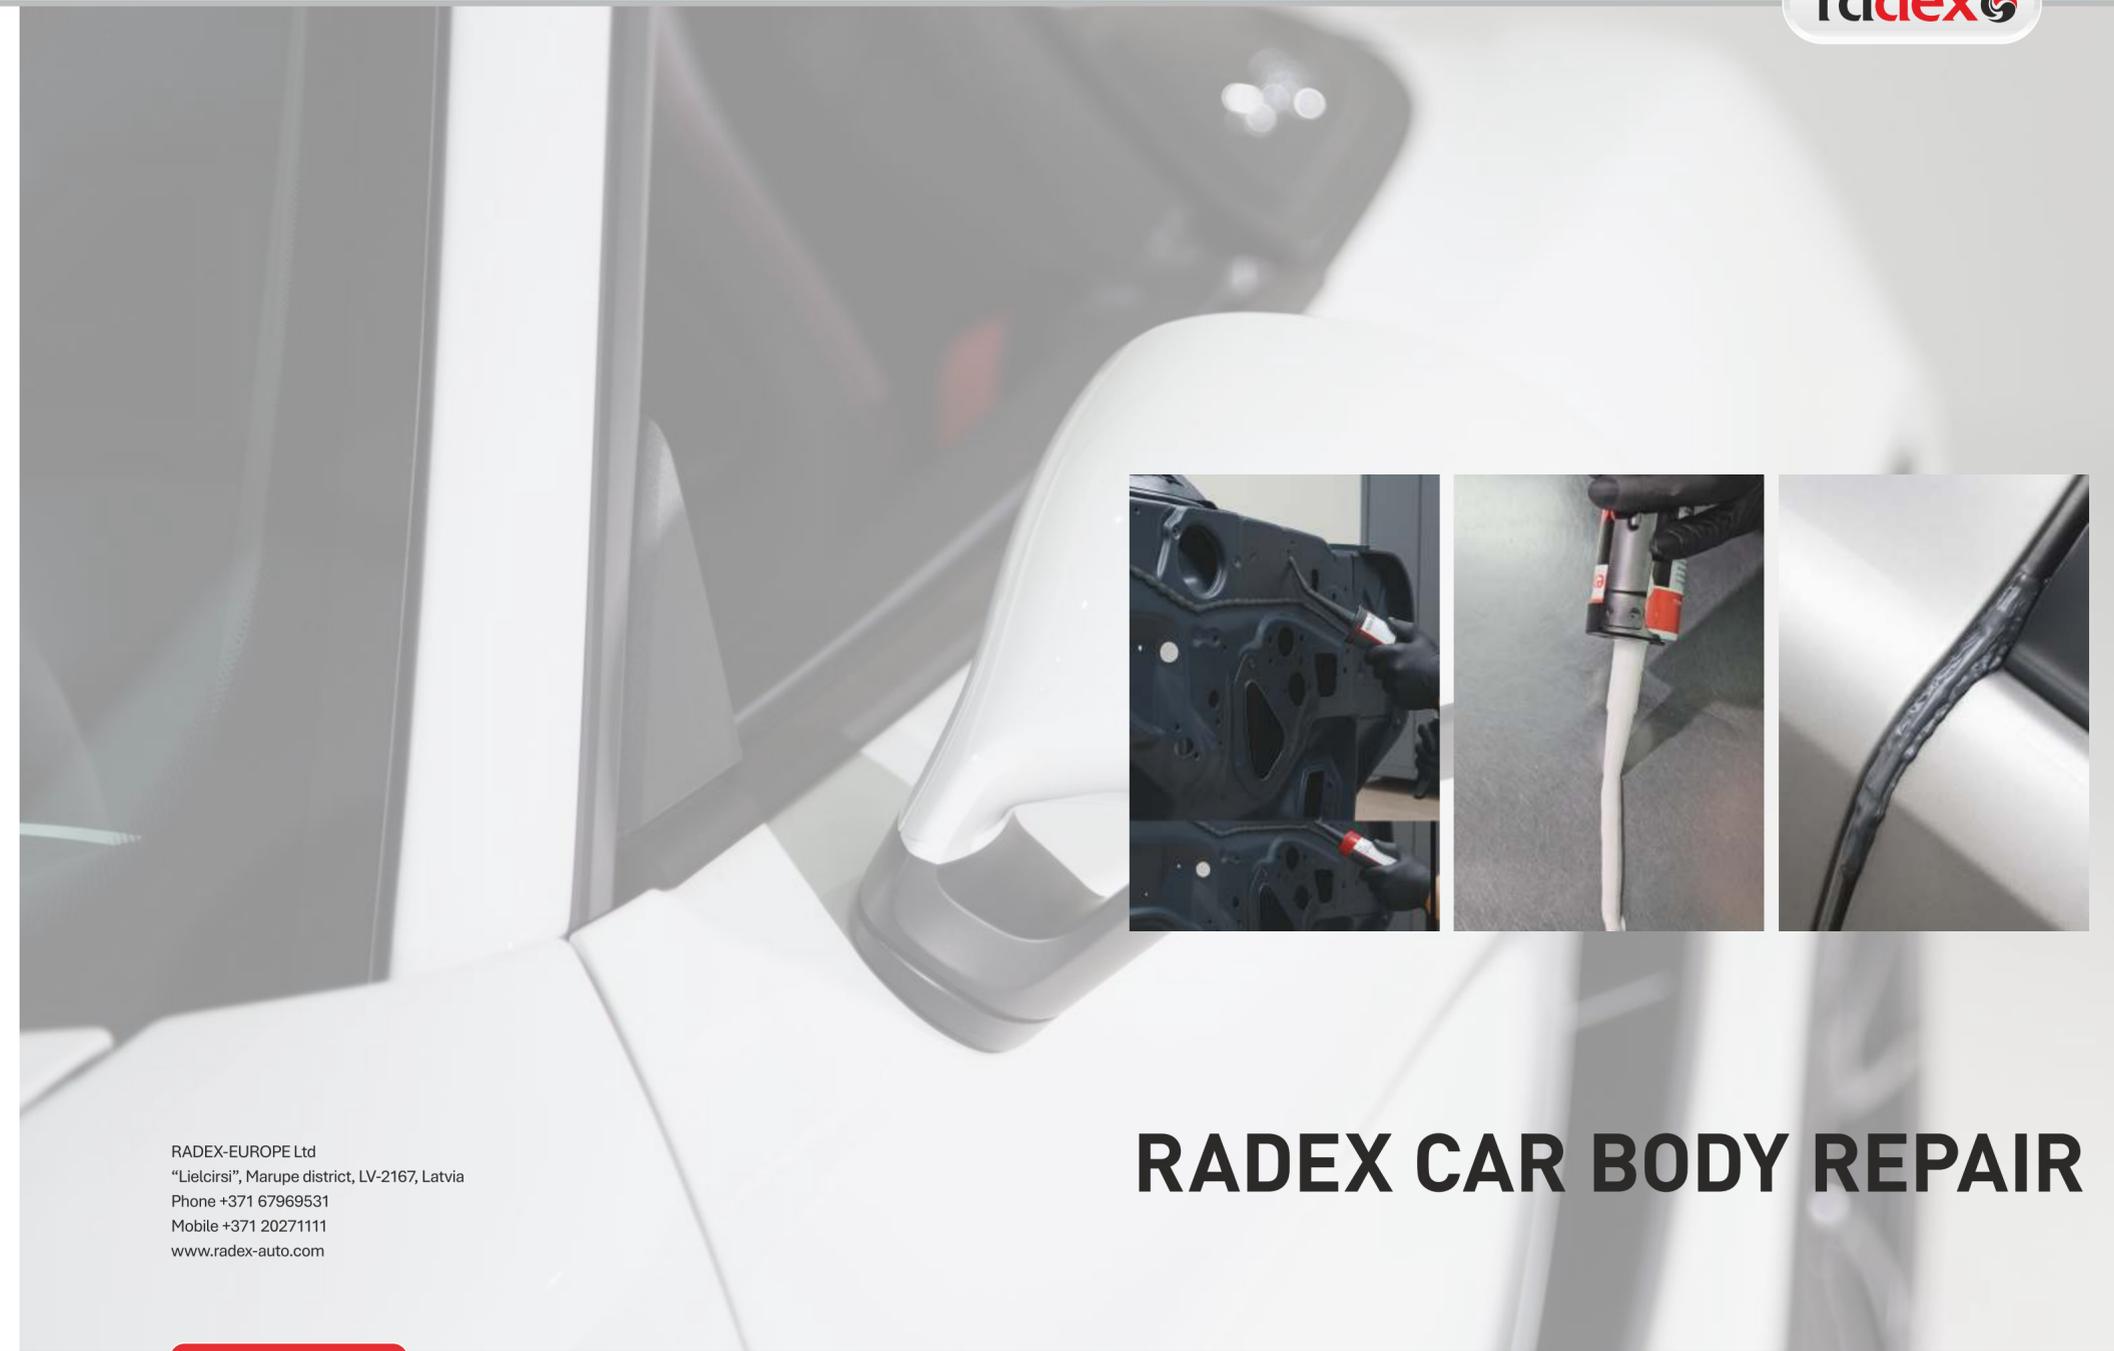

#### RADEX CLEANER ACTIVATOR ART. 220002

A cleaning and activating agent that ensures the bonding surfaces are free of grease, dust, and other contaminants. Essential for optimal adhesive performance and long-term durability.

#### RADEX FELT APPLICATOR ART. 080019

A soft, non-abrasive applicator used to apply the primer evenly and precisely on glass or body surfaces. Designed for professional and clean primer application.

ART.	Product	Color	Volume	Packaging details	Working Time	Cut / Sand Time	Application
220701-220703	Radex 701 Polyurethane Sealant	White, Grey, Black	310 ml	1/12 pcs	Moisture curing, fast	-	Sealing vehicle body joints and seams. Ideal for car body repair.
220801	Radex 801 Glazing Adhesive	-	310 ml	1/12 pcs	Ultra fast curing	-	Direct automotive glass bonding. Provides UV, weather and impact resistance.
220901-220903	Radex 901 Sprayable Sealant	Grey, Black, Beige	290 ml	1/12 pcs	Moisture curing	-	Sprayable seam protection. Free from solvents and isocyanates.
220225	Radex 225 Epoxy Structural Bonding	Grey	195 ml	1/12 pcs	25 min	2,5 H	Precision bonding on metals, composites, stone, wood, ceramics, plastics.
220335	Radex 335 Epoxy Flexible Adhesive	Grey	250 ml	1/12 pcs	10 min	20-30 min	Flexible structural bonding on mixed substrates. Good impact resistance.
220000	RADEX 2K plastic structural adhesive (30SEC)	Grey	50 ml	1/12 pcs	~30 sec	5 min	Ultra-fast structural bonding of plastics and composites. Fast working time.
220090	RADEX 2K plastic structural adhesive (1,5 MIN.)	grey	50 ml	1/12 pcs	90 sec	10 min	Structural bonding for bumpers, spoilers and plastic parts. Durable and elastic.
210027	RADEXSEAL BS brushable seam sealer	Grey	1KG	1/12 pcs.	30 minutes.	1 or 2 days	Is a one component, brushable, overpaintable seam sealer based on polymers for a durable sealant of joints and seams that have been bolted, riveted or spot welded.
220433	Radex 433 Semi-Rigid PU Foam	Grey	50 ml	1/12 pcs	30 sec	3 min	Gap filling, structural reinforcement. Expands on application.
410050	Nozzle for 2K Epoxy	-	-	12 pcs	-	-	Mixing nozzle for 2K epoxy adhesive application.
220005-220007	Mix Tip for 2K Adhesive	-	-	12 pcs	-	-	Mix tip for proper blending of 2K polyurethane adhesives.
220111	Plastic Adhesive Primer (Aero)	Transparent	150 ml	1/12 pcs	Fast drying	-	Improves adhesion on plastics before bonding or painting.
220001	Primer	Transparent	30 ml	1/12 pcs	Fast drying	-	Enhances adhesion of adhesives on various substrates.
220002	Cleaner Activator	Transparent	30 ml	1/12 pcs	Fast drying	-	Surface activator and cleaner before bonding.
080019	Felt Applicator	-	-	10 pcs	-	-	Used to apply primer uniformly.
410021	HSG Hand Gun	-	-	Box	-	-	Manual gun for cartridges and sausage packs.
410022	HCG Hand Gun	-	-	Box	-	-	Heavy-duty hand gun for thicker adhesives and sealants.
410031	PG Pneumatic Gun	-	-	Box	-	-	Pneumatic gun for sealants, precise control.
410032	PGS Pneumatic Spray Gun	-	-	Box	-	-	Sprayable sealant application via compressed air.
410033	PRO Applicator	-	-	Box	-	-	High-performance applicator for glue application.

## RADEX ADHESIVES & SEALANTS

Radex offers a complete range of professional sealants and adhesives designed for vehicle body repair and assembly work. Whether you need to replicate original seam structures, ensure strong structural bonds, or install automotive glass – RADEX has the right solution.

Each product in the range is optimized for application efficiency, material compatibility, and long-term durability in automotive environments.
